Urban Forestry is a part of Public Works. LASAN does not trim trees. Since this branch is part of a living, viable tree, it is best to have one of the professional tree trimmers/tree surgeons handle the issue. I hope tis helps.

Good afternoon, Sarah,

I hope this email finds you well! Hope all is safe & well from your part!

I have a situation with a tree on **9338 Sunland Park Drive**. The tree, overall, is upright. However, one part of its branch has been slanted onto the ground for quite some time. It's been years since it's been looked at, and it has been carrying/picking up trash debris on the ground overall. I have reached out to Urban Forestry, General Division, and the County of which they all say that it is not part of their area. It seems like it is part of Public Works.

I was curious to see if there was any way we can take a look at it? Of course, IF this department is the appropriate department to be working with! :) Please, do let me know!

Looking forward to hearing from you!
Much Gratitude,
Delilah Shahbazian
